## Silicone spray For bicycles

Art. No.: RP0021

High quality silicone oil in solvent mixture with compressed gas propane-butane. In contrast to many non-silicone products, the RP0021 has proven itself many times over under extreme conditions (e.g., to seawater, water vapor, sulfur dioxide, diluted acids and alkalis).

### Features:

- » Low viscosity therefore high penetration effect
- » Universally applicable as grease, impregnating and release agent
- » Extremely thin film thicknesses can be achieved
- » Colorless and neutral in taste and odor
- » Waterproof, radiation-resistant, weatherproof
- » High dielectric strength and a low loss factor

### Specifications:

Content	0.15 l
Fields of application	Greasing, care and maintenance of rubber, plastic and metal surfaces
Active Substances	Silicone in solvent mixture
Weatherproof	-50° C–250° C

### Application:

Optimum use and storage temperature 15–25° C. Shake briefly before use. Apply evenly to the surfaces to be covered from a distance of approx. 20–30 cm, ensuring complete wetting. Flash-off time approx. 30 s at room temperature.

### Package Contents:

- » 1x Silicone spray

### Packaging Informations:

- » Packing Dimension: mm
- » Packing Weight: kg
- » Carton Dimension: mm
- » Carton Q'ty: pcs
- » Carton Weight: kg

RP0021
