

LogiLink®

Cassette to MP3 Converter

Art. No.: UA0281

UA0281 is a Standalone Cassette Tape to MP3 Converter which converts tapes to a USB flash drive directly with no need of a computer. Easily convert and partition each song by pressing Auto Mode or Manual Mode.

It can be used as a Walkman, listen to the cassette/tape with headphones, speakers, or a car stereo. Just plug the 3.55mm AUX jack into the converter, then enjoy the sound from the past.

Features:

- » Converts your cassette to MP3 format into a USB flash drive or USB card reader with SD/Micro SD card directly
- » Standalone conversion, no PC or software required
- » Easy operation with Manual Mode or Auto Mode
- » Partition each song automatically or manually
- » Playback function allows you to check the recorded on the device
- » Auto-Reverse function
- » It can be used as a Walkman to play the tapes or MP3s of the thumb drive without converting
- » Audio output enables you to listen to music on your head phone or other speaker systems
- » Powered by 2 AA batteries (not included), or 5V DC USB
- » Plug & Play
